ach institution needs to coordinate with its business office as to where the money from funds should go t is possible to put it in an agency account but it is at each school's discretion

Resources on the OR website – it is an excellent list of resources but at this point we don't know if there will be someone to maintain it

The Study broad udit draft report will be issued soon The auditors are generally satisfied with the results and they were pleased with all the collaboration they received from all the institutions. These were not big issues but as we expected in many places practices have not caught up to the policy.
